—, midtrimester, anatomical studies, 283
— prediction, failure from cytology of smears from vaginal wall, 668
—, spontaneous, transplacental haemorrhage in, 763
—, therapeutic, by intra-amniotic injection of hypertonic saline, 187
—, —, clinical study of various methods, 380
—, —, complications, 187
—, —, immediate complications, 187
—, —, transplacental haemorrhage in, 763
Abruptio placentae, coagulation defects in, natural history, 764
Acid-base balance, fetal and maternal, effect of pethidine on, 477
Acid-base balance of neonatal blood, 766
Acidosis with abnormal findings at amnioscopy, 764
Adenine-nucleotides in normal pregnancy, relation to oestrogenic hormones, 1143
— in normal pregnancy, relation to progestogenic hormone, 1144
Adolescence, pregnancy, labour and puerperium in, 571
Amenorrhoea due to neuroleptic drugs, 93
—, persistent, after discontinuation of oral prostagens, 478
—, primary, chromosome studies in, 1148
— —, gynaecographic study, 672
—, RO-4-8347 treatment, 1149
Amino-acid levels in maternal blood, relation to fetal development, 855
Amniocentesis in prolonged pregnancy, 957
Amniography in clinical evaluation of erythroblastosis fetalis, 185
Amnioscopy in selective induction of labour, 765
—, risk of acidosis with abnormal findings at, 764
—, survey of 2,592 cases, 574
Amniotic fluid, bilirubin content, analysis by thin layer chromatography, 1147
— —, bilirubin content, spectrophotometric determination, 1146
— — cells, sex chromatin in, clinical significance, 1147
— — cytology in assessment of fetal maturity, 187
— — embolism, clinical course, 475
Amniotic fluid, protein content in prediction of severity of haemolytic disease of newborn, 667
Ampicillin prophylaxis in Caesarean section, 477
Anaesthesia, general, awareness during Caesarean section under, 478
Analgesia, *see* Paracervical
Angiotensin, skin reaction in healthy pregnant women and in those with late toxaemia, 477
Anovulation, clomiphene treatment, 1053
—, electroencephalographic investigation and clomiphene treatment, 767
—, investigation and treatment, progress in, 669
—, prolonged, following oral progestins, 767
Anoxia, fetal, effect of maternal infusion of glucose on electrocardiogram in, 766
Anticoagulants in pregnancy after implantation of artificial heart valve, 1050
Antifibrinolytic treatment, changes in endometrial tissue plasminogen levels during, 859
Aorta rupture, spontaneous, in pregnancy, 668
Apgar score, neonatal, relation of fetal *p*H readings to, 1052
Appendectomy during pregnancy, 1146
Appendicitis, acute, in puerperium, 573
Arias-Stella reaction in extrauterine pregnancy, 183
Arteriography, pelvic, in evaluation of trophoblastic disease, 191
Ascites in advanced ovarian carcinoma, treatment, 287
— with ovarian tumours, ileo-entectropy for, 480
Asphyxia, fetal, cardiovascular changes during, 858
Automation of screening for cervical carcinoma, 191

Bacteriuria, asymptomatic, in pregnancy, urinary concentrating ability in, 1050
—, —, incidence in pregnancy, 1144
Bendrofluazide in hypertension in pregnancy, 184
Bilirubin content of amniotic fluid, analysis by thin layer chromatography, 1147
— — of amniotic fluid, spectrophotometric determination, 1146
Biopsy, cervical cone, local infiltration for, 479
—, — —, self-retaining Hegar's dilator for, 576
Birthweight, relation to rupture-delivery interval, 1142
Blood coagulation and progesterone oral contraception, 670
Blood coagulation defects in abruptio placentae, natural history, 764
— — during normal and toxaemic pregnancy, 1050
—, fetal, application of Kleihauer technique to, 667
—, maternal, amino-acid levels, relation to fetal development, 855
—, neonatal, acid-base balance, 766
— platelet behaviour, effect of oestrogens on, 189
— pressure, brachial arterial, in lateral recumbent position during pregnancy, 182
— samples, fetal capillary, validity during labour, 1050
— sampling, fetal, in a regional hospital, 574
— —, —, in management of fetal distress, 574
—, total protein content, variations during normal pregnancy, 1144
— transfusion, exchange, intrauterine, 185
— volume, circulating, during normal pregnancy, determination, 763
— —, residual placental, in fetal distress, 668
Bone density changes as result of menopause, radiological estimation, 188
Bradycardia, fetal, after paracervical block, 379
Breast carcinoma, early diagnosis from cytology of mammary secretions, 860

Caesarean section, ampicillin prophylaxis, 477
— —, elective management of delivery after, 92
— — under general anaesthesia, awareness during, 478
Cancer tissue, human, proliferation under influence of cytostatic and hormonal agents in tumour tissue cultures in animals, 1151
Carcinoma, *see also* Organ affected
—, genital, surgically treated, influence of supplementary cytostatic treatment on cure rate, 383
—, gynaecological, vertebral metastases, diagnosis, 960
Case records, punch-cards in, 182
Catheterization infection during labour and puerperium, 379
Cervix uteri amputation and conization, influence on fertility and course of pregnancy, 479
— — carcinoma, automated screening for, 191
— — —, biopsy methods in diagnosis and treatment, 860
— — —, *in situ* in pregnancy, 572
— — — *in situ* in women using intrauterine contraceptive devices or oral steroids, 1053

Cervix uteri carcinoma, pre-clinical treatment, 382
— — —, recurrent, management, 383
— — —, spread of cancer cells through uterine cavity and Fallopian tubes in, 1152
— — cone biopsy, local infiltration for, 479
— —, cone biopsy, self-retaining Hegar's dilator for, 576
— — conization in pregnancy, 958
— — conization, technique, 287
— — erosion in early pregnancy and after abortion, cytological and histological appearances, 476
— — incompetence during pregnancy, combined medical and surgical treatment, 474
— — mucus, electron microscopy, 1049
— — —, sodium chloride content as test of ovulation, 1152
Chiari-Frommel syndrome, review of 17 cases, 575
Chlormadinone acetate as oral contraceptive, 1150
Chorionepithelioma, early detection, 958
Chromosome(s) constitution, relation of Turner's syndrome to, 381
— of endometrial carcinoma, 1152
— studies in primary amenorrhoea, 1148
Circulation, maternal, estimation of fetal erythrocytes in, 669
Clomiphene and human pituitary gonadotrophins, joint action, 767
—, effect on gonadotrophin output in disturbed ovarian function, 1150
— in anovulation, 767
— — —, clinical results, 1053
— treatment, biochemical and clinical observations, 575
Coitus, blood pressure and respiratory patterns during, 1142
Colpotomy, posterior, diagnostic and therapeutic potential, 479
Conization, cervical, in pregnancy, 958
—, —, technique, 287
Contraception, attitude of medical profession to, 1053
—, basal body temperature method, field trial, 190
—, oral, and epilepsy, 478
